Against The Grain A Deep

Against the Grain: A Deep History of the Earliest States by James C. Scott tells a somewhat different story that will challenge everything you've been taught about ancient history. For example, by about 10,000 BCE, small human communities had begun to form, domesticating plants and animals, irrigating crops, and growing some of their own food while obtaining the rest from the land around them.

...

Against The Grain: A Deep History of the Earliest States is a 2017 book by James C. Scott that sets out to undermine what he calls the "standard civilizational narrative" that suggests humans chose to live settled lives based on intensive agriculture because this made people safer and more prosperous. Instead, he argues, people had to be forced to live in the early states, which were hierarchical, beset by malnutrition and disease, and often based on slavery. The book has been praised for re-ope

...

Against the Grain: A Deep History of the Earliest States. (James C. Scott) written by Charles. This outstanding book, by the anarchist-tending academic James C. Scott, might be (but isn't) subtitled “Barbarians Are Happier, Fatter and Better Looking.”. The author does not believe the myth of the noble savage—but he thinks the savage is, on average, a lot better off than the peasant.
