As simple as this hockey drill appears it is very effective for particular situations. One situation is for practices or sessions that involve more than 25 players. The other situation is for a half ice practice. Each repetition involves 4 players and 4 shots at each end, so in a full ice practice 8 players are involved in each repetition.

As a hockey coach and a player I am always trying to become smarter, better, and faster. What some players don't realize is that by knowing your position and knowing your plays you will become a "faster" player. A positionally sound hockey player could be physically slower than every player on the ice, but by [...]
