Science And Civilisation In China

Science and Civilisation in China is an ongoing series of books about the history of science and technology in China published by Cambridge University Press. It was initiated and edited by British historian Joseph Needham. Needham was a well-respected scientist before undertaking this encyclopedia and was even responsible for the "S" in UNESCO. To date there have been seven volumes in twenty-seven books. The series was on the Modern Library Board's 100 Best Nonfiction books of the 20th century.
