This offers the advantages of low error probability and increased clarity of the program.

Structured Text (ST) - Beckhoff Automation

Structured Text is PLC programming language defined by PLCOpen in IEC 61131-3. The programming language is text-based, compared to the graphics-based ladder diagram or Function Block Diagram. At first, it may seem better to use a graphical programming language for PLC programming. But in my opinion, that is only true for smaller PLC programs.
