Landscape Urbanism Reader by Charles Waldheim

Landscape urbanism emerges. Perhaps the time has come to state, definitively, that landscape urbanism has in fact emerged. Described for so long as an “emerging” practice, landscape urbanism—with all of its ambiguity and complexity—represents a significant twenty-first century design and planning ethos. Several prominent universities promote and support its principles, design firms include it in their firm names, and the term has even begun to enter national media

Landscape urbanism is a theory of urban design arguing that the city is constructed of interconnected and ecologically rich horizontal field conditions, rather than the arrangement of objects and buildings. Landscape Urbanism, like Infrastructural Urbanism and Ecological Urbanism, emphasizes performance over pure aesthetics and utilizes systems-based thinking and design strategies. The phrase 'landscape urbanism' first appeared in the mid 1990s. Since this time, the phrase 'landscape urbanism' h
