The minimalist movement is huge with tiny houses, but the Engbergs show how it's possible to still have room for the things you love and live tiny without having to become completely minimalist. Their practical advice--such as how to choose a trailer, how to downsize, which couch to choose, and what it's like to live with another person in such a small space--is honest, realistic, and well-written.

When you first see a tiny house you may not understand why someone would want to live in such a small space (I know we did!). With time, effort and research we soon became sold on the idea, but that's a story for another time. (that other time is covered in detail in our Best Selling Book: Tiny House Basics, Living the Good Life in Small Spaces) The part I want to focus on is the consumer education we have to do to "sell" the tiny house idea to prospective landowners when we search for ...
