methods now takes an hour” Cardan shaft driven feed system.

Weinig Profitmat Moulder - Calderbrook

The WEINIG structure planing technology makes it possible to move the spindle relative to the work piece as it is fed through and in this way to create a three-dimensional surface.

Using CAD software the

Read Free Weinig Profimat 22n

structured surfaces can be checked and simulated in advance and then actually produced on the moulder.

Planing and profiling with WEINIG

The Weinig patented steel feed roller is recognized to be the best for rough or smooth stock situations, and can be used on many types of moulder - even other
