The PowCon was an excellent welder, they were pretty revoulutionary when they came on the market. If I remember right either Lincoln or Miller bought them out (and the one that didn't buy them out came up with inverters of their own design). Of course none of that helps you find parts and service for yours.

I was just given a PowCon 400SM welder and would appreciate a source for an instruction manual. My first requirement is to properly connect the primary for 230 single phase so if anyone knows that scheme, it will ge greatly appreciated. It appears to be currently set for 230 3 phase based on the plug and some hand writing on the case.
