What Magnets Can Do (Rookie Read-About Science) Paperback ...

Nick, thanks for your Reader Magnets book. It's very timely. I've 5 books (paperback and eBook) exclusively on Amazon. One thing I've learnt - do the same thing in the same way and you get the same results - for me the results are poor measured in sales. Good to great reviews but very limited sales.

Self Publishing a Book? Some Advice you Shouldn't Follow

Magnets can be used in scrap and salvage operations to separate magnetic metals (iron, cobalt, and nickel) from non-magnetic metals (aluminum, non-ferrous alloys, etc.). The same idea can be used in the so-called "magnet test", in which an auto body is inspected with a magnet to detect areas repaired using fiberglass or plastic putty.

Magnets - Kids, Science & Technology - Kids | Barnes & Noble®

Magnets have been used by people for a very long time. Hindu scriptures refer to medical applications of magnets as far back as the 40th century B.C.; the ancient Chinese, Greeks, Egyptians and Romans also used magnets with medicine. Magnets have helped ancient and modern explorers navigate, through the use of the ...

Things That Are Made From Magnets | Sciencing

Set Up Magnet Test Items. The test items should include some metals that are attracted to magnets, some metals that are not, and some non-metal items. At a minimum, students should examine one item from each of these categories. You may want to set up a test item station so that students can explore multiple items from each category. Teacher Tip

What can magnets do? - Mystery Science

"What Makes A Magnet" explains what a magnet is and how they're used in a way that a child can understand while still keeping it interesting for adults. It also goes back to show the origin of how we found out about magnets and how they were first used by early explorers.

What Makes a Magnet? (Let's-Read-and-Find-Out Science 2 ...

What Do Magnets Do? - Magnets are a wonderful asset for many different purposes. Ever since rocks with magnetic features were found, people have used them to influence things that include iron. To understand what magnets do we must look at magnetic fields and what they attract and repel. Magnets are useful in so many ways and thanks to the fields that can expand well beyond what we imagine ...
